

# Longest Season

## Stemilt All The Way Up!

Stemilt's unique cherry season is the longest anywhere you go. It starts in early May and doesn't end until early September. You won't find another cherry season longer than ours!

### Just Above Sea Level

*Late April to mid June*

World Famous Cherries kick off in California where sunny skies produce high-quality cherries with volume concentrated in the San Joaquin Valley including Brentwood and Stockton/River Delta which sit just below sea level. These cherries receive the wonderful benefits of chilling in the cool delta breeze.

**Key Varieties:** Coral, Garnet, Rainier, Royal Hazel, Bing, and Lapin

### 2,640' Elevation

*Mid July to mid August*

**Kyle's Pick**

#### Stemilt Hill, WA

Famous for its volcanic soils and gradual elevation changes that extend harvest, Stemilt Hill is known for large, premium cherries.

**Key Varieties:**

Rainier, Skylar Rae®, Bing, Sweetheart, and Skeena

### 800' Elevation

*Mid June to mid July*

#### Mid-Columbia Basin, WA

This large district starts cherry season in Washington and includes company-run orchards in Pasco, Mattawa, and Quincy.

**Key Varieties:** Chelan, Santina™, Bing, Skeena, Rainier, and Skylar Rae®

### Kyle Time! 3,200' Elevation

*Mid August to early September*

**Premium High-Altitude Cherries®**

#### Amigos Orchards, WA

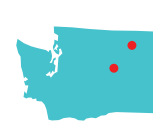

This unique locale gives Stemilt the latest cherries in Washington State. Orchards start at 2,640 feet above sea level and now extend to 4,000 feet. Warm days, cool nights and Kyle Mathison's unique growing practices produce some of the finest cherries all season long.

**Key Varieties:**

Sweetheart, Sentennial™, and new test varieties

### 1,500' Elevation

*Early to late July*

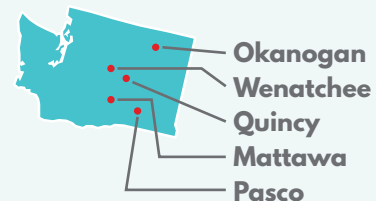

#### North Central WA

This widespread district grows premium cherries in Wenatchee, Chelan, and Okanogan.
