

# The Best of the Best

## Black Pearl™

True to its name, the Black Pearl™ will be an early season variety with extremely dark coloring, firm, crunchy bite, and excellent flavor profile.

## Coral

We're expanding this large, firm, dark-fleshed variety in our California orchards. It has a sweet flavor with low-acid levels.

## Rainier

Stemilt has grown Rainier cherries at scale for decades and continues to lead innovations around this yellow and super sweet cherry today.

## Royal Family

Led by Royal Hazel, this group of low-chill cherries size and yield well, allowing us to kick the California season off with great flavors.

## Sentennial™

This premium cherry is the last to harvest in late August in Washington State, and Stemilt has the exclusive rights to grow and sell Sentennial™ in the US.

## Skeena

We're the leading Washington grower of this late-harvesting cherry. Skeena is a high-sugar and low-acid cherry and featured variety in July's Kyle's Pick® program.

## Skylar Rae®

The third SKU in the cherry category is bi-colored with the highest sugar levels of any cherry and exceptional firmness.

## Staccato®

Stemilt has the exclusive rights to grow and sell the late-ripening Staccato® cherry in the US. This super sweet, large, and extra firm cherry is a featured variety in August's A Half Mile Closer to the Moon® program.
